PROFESSIONAL SUMMARY

Sustainability-focused environmental scientist with experience in GIS, field and lab soil research, and sustainable design. Led an independent research project from study design through a 20+ page paper and public presentation. Joining ProPath (Sonic Healthcare) as a Histology Lab Technician II in October 2026.

EDUCATION

Knox College

Galesburg, IL

Bachelor of Science in Environmental Science, Minor in Biology | Cum Laude, GPA: 3.61 Sep. 2022 – June 2026

- **Honors & Awards:** Dean's List (9 terms), Knox Trustees' Distinguished Scholarship, Proctor Fenn Sherwin Prize in Freshman Writing

EXPERIENCE

Histology Lab Technician II

Oct. 2026 – Present

ProPath Services, LLC (Sonic Healthcare USA)

Dallas, TX

- Training in specimen accessioning and processing within a clinical anatomic pathology laboratory

Teaching Assistant, BIO 312 Animal Behavior

Mar. 2026 – June 2026

Knox College

Galesburg, IL

- Prepared labs, guided students, graded assignments, and cared for course animals (cichlids, chicks, dogs)

Environmental Science Tutor

Mar. 2025 – June 2026

Knox College

Galesburg, IL

- Tutored students one-on-one across environmental studies and science courses, tailoring explanations to each student's needs

Computer Lab Assistant

Sep. 2024 – June 2026

Knox College

Galesburg, IL

- Monitored labs, enforced policies, and maintained equipment while troubleshooting issues for students and faculty

Student Representative, CFO Search Committee

Sep. 2025 – Jan. 2026

Knox College

Galesburg, IL

- Selected as the sole student representative; interviewed candidates and helped set hiring standards alongside staff and faculty while maintaining strict confidentiality

RESEARCH & PROJECTS

Senior Research: Rain Garden Soil Health Assessment

2025 – 2026

Knox College

Galesburg, IL

- Designed a study on rain garden impacts on soil health; collected GPS-located samples and ran bulk density, pH, loss on ignition, and NPK analyses with field infiltration testing
- Analyzed results with ANOVA and GIS mapping; wrote a 20+ page paper and presented findings to students and faculty

Biophilic & Resilient Design Collaborative Research

2025

Knox College

Galesburg, IL

- Co-designed and built a 200 sq ft rain garden (11 native species) and a SketchUp learning center mockup
- Built a public research website and presented to stakeholders, students, and faculty

SKILLS

Lab & Field: GPS data collection, soil sampling, bulk density, pH, loss on ignition, NPK, infiltration testing

GIS & Design: ArcGIS Pro, ArcGIS Online, StoryMaps, spatial analysis, SketchUp

Data & Communication: Excel, ANOVA, statistical analysis, technical writing, literature review, presentations, tutoring

Languages: Spanish (reading and listening comprehension), German (basic)
